

ISO17712 CERTIFIED PREMIUM HIGH SECURITY CABLE SEAL WITH NON-PREFORMED STEEL WIRE

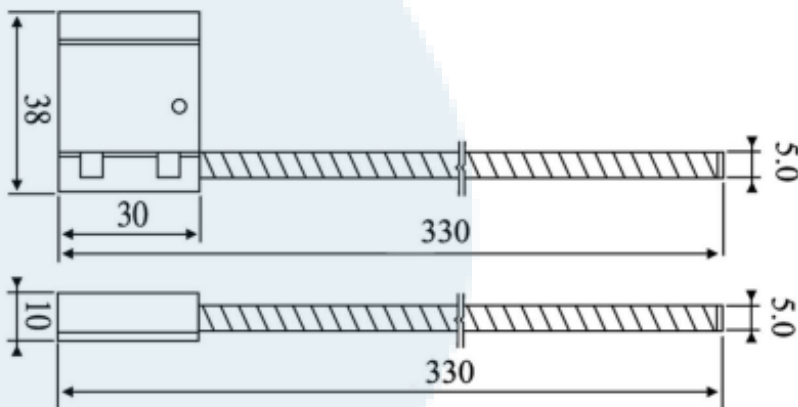

Strong and durable aluminium bodied cable seal with 5.0mm non-preformed wire designed to provide maximum security.

Features:

- ISO17712 certified, suitable for securing containers for export purposes
- Non-preformed galvanised cable unravels when cut to prevent resealing
- Customisable wire lengths to suit a wide range of applications
- Aluminium body enhances durability in adverse conditions
- Self-locking mechanism ensures secure locking without need for tools
- Anodized aluminium body allows greater customisation options while providing high visibility and easy readability
- Laser etched markings with unique Serial Number and Barcode
- Customisable printing to include company name, logo, text and barcodes
